An undergraduate Computer Science student at BINUS University specializing in Software Engineering. Organized and dependable person. Interested to learn, expand technical expertise, and gain work experience. Willingness to take added responsibilities to meet team goals.

EDUCATION

BINUS University **August 2024 - Present**

Bachelor of Computer Science (Software Engineering)

- Relevant Coursework: Software Engineering, Code Reengineering, Software Architecture, Mobile Hybrid Solution, Research Methodology, Algorithm & Programming, Data Structures, Database Technology, Web Programming, Software Metrics and Quality Assurance, Operating System
- Cumulative GPA: 3.65/4.00

SMA Kolese Loyola **July 2021 - May 2024**

High School Diploma

- Science (IPA)
- Cum Laude

PROJECTS

Stairslife | stairslife.com

- Collaborated with a team to develop a freelancer marketplace platform that connects university students with UMKM clients seeking digital services.
- Building responsive and user friendly interfaces.

Comparative Analysis of NLP Intent Classification in Indonesian Customer Service Chatbots

- Published on 2026 International Conference on Information Management and Technology (ICIMTech 2026)
- Co-authored a research paper comparing NLP-based intent classification approaches for Indonesian customer service chatbots, evaluating Rule-Based, TF-IDF with LinearSVC, Word2Vec with MLP, and IndoBERT approaches across clean and noisy datasets.

MRCOFFEE

- Designed the complete UI/UX in Figma and translated the design into a responsive, functional website from scratch.
- Developed a responsive coffee ordering website featuring product filtering, item customization with add-ons, shopping cart management, and order processing.

Reta's Web Portfolio | reta-webporto.vercel.app

- Independently planned, designed, and developed a responsive portfolio website to showcase a cybersecurity student's projects, technical skills, certifications, and experience.
- Built interactive interfaces using React, TypeScript, and Tailwind CSS, integrating and customizing React Bits animation components to create engaging user interactions, responsive navigation, and light/dark themes.

ExpenseVisual – Expense & Budget Visualizer | expense-visual.vercel.app

- Developed a responsive expense-tracking web application that helps users manage transactions, monitor their balance, review monthly spending, and visualize expense distribution by category.
- Implemented transaction creation and deletion, input validation, custom categories, transaction history, dark/light mode, and browser-based data persistence using Local Storage.
- Designed an intuitive interface focused on making personal expense tracking simple and accessible through interactive spending summaries and charts.

EXPERIENCE

Store Assistant **Mar 2026 - Apr 2026**

CV Bumi Gemilang Karya

- Operated as a cashier and assisted with wholesale deliveries, ensuring accurate handling and distribution of customer orders.
- Conducted inventory counts and monitored the movement of goods in and out of the warehouse, ensuring all transactions matched the corresponding invoices.

Publication & Documentation Committee **Sept 2024 - Sept 2025**

HIMTI Binus

- Designed and managed promotional social media content for student events.
- Coordinated with multiple divisions to support event communication and outreach.

Sponsor Committee **June 2025**

HISHOT Binus

- Identified and approached potential sponsors through research and email outreach.
- Built and maintained relationships with prospective sponsors to secure financial support for the event.

Business Assistant **Feb 2025**

PT Harpazo Megah Eka Jaya

- Learned flooring business operations while monitoring employee activities and reporting operational issues encountered in the field.
- Prepared field issue reports and provided English translation support for communication with material suppliers from Malaysia.

Plantation Operations Assistant **May 2024 - Jun 2024**

Independent Oil Palm Plantation

- Assisted with day-to-day plantation operations and supported the coordination of field activities.
- Helped monitor operational activities to support efficient plantation management.
